PUBLIC UTILITIES.

The Pacific Power and Light Company's Big Creek hydro-electric plant will be ready for operation about the first of November. The engineers report that the reservoir is practically filled with water and contains 45,000 acre feet. The first power house is about completed and unit No. 1 installed, with unit No. 2 nearly ready. The second power house is nearing completion and the machinery for it is being assembled. The plant will have an initial development of 65,000 horse-power, which will be transmitted over a double high tension line to Los Angeles. For the eight months ended August 31, 1913, gross carnings of the company showed an increase of 12,30 per cent, while net earnings increased 17,19 per cent, and total income 20,35 per cent, over the corresponding period of 1912. The surplus for the eight months was \$541,407, a gain of 42,77 per cent.

Prospective developments to be made to the Pacific Electric Rallway Company's line will entail an expenditure of about \$8,000,000. The company has not yet secured the necessary funds because of the high interest demands, but it is expected that the money will be forthcoming shortly. The contemplated additions will include an elevated structure of 3.14 miles and a subway 2.86 miles in length which will pass through the fashionable residence section of Los Angeles and under Sliver Lake Park. With the completion of the new line the company will be able to remove its high speed trains from the streets and the running time to the beaches will be reduced fourteen minutes.

The receiver of the Columbus. Delaware and Marion Rallway Company in his report on the operation of the company recommended that the bond and stockholders formulate a plan to take it out of the courts. The company has been in the hands of receivers since 1999 and the good showing which the company has been making recently has led the receiver to believe that a successful reorganization of the company could now be made. The report of the receiver for the year ended June 36, 1913, during which period the company sustained a loss by flood damage of \$28,000, exhibited an increase of 10 per cent, in gross carnings over the previous year. Gross operating income amounted to \$441,029, of which \$190,518 was saved as net. After bond interest and taxes of \$162,169 a balance of \$28,649 remained.
